

**IN THE DRAWINGS:**

New drawing figures 1-4 attached are all labeled "Replacement Sheets".

In Fig. 1, reference numeral "28" has been added for the "2nd Page" marker, and the slide control reference numeral has been corrected from "22" to "34". Also the informal reference numbering has been made formal.

In Fig. 2 the informal reference numbering has been made formal.

In Fig. 3 the informal reference numbering has been made formal.

In Fig. 4 the informal reference numbering has been made formal and a circle labeled 166 has been drawn around the text relating to the setup and emulation and the circle at "Printer" and "Print Tab" has been removed.

## R E M A R K S

The drawing objection with respect to reference character 22 has been corrected by changing the reference numeral to "34". The drawing objection as to reference character 100 is avoided by changing in the specification at page 12, line 29 reference numeral 100 to 110.

The drawing objections with respect to reference numerals 28, 34, and 166 have been corrected by showing "28" in Fig. 1, by showing "34" in Fig. 1, and by showing "166" in Fig. 4.

The specification problem noted with respect to the "PNV marker" lacking definition should be respectively reconsidered for the following reasons. At page 7, line 10 of the substitute specification "PNV marker" is defined as a "print marker".

With respect to the future invention reference in the two quotations in the substitute specification, this problem has been avoided by eliminating a reference to the future.

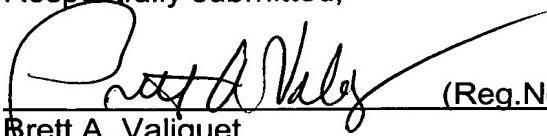

The title objection has been avoided by a title more clearly indicative of the invention to which the claims are directed.

The claim 39 objection is avoided since claim 39 is now incorporated into claim 35.

The Examiner indicated that claims 39 and 43 would be allowable if placed in independent form. This has been done. Also claims 44-68 are allowed. Thus, since

claim 38 has been cancelled and incorporated into claim 35 and since claim 42 which is now cancelled has been incorporated in the claim 43, all claims in the case are now allowed.

Respectfully submitted,

(Reg.No.27,841)
